

Spatial Disorientation

In this seminar, we will discuss the physiology and limitations of human sight and balance mechanisms, offer responses to typical disorientation and illusion events, and discuss best practices for preventing spatial disorientation.

We will also watch two short videos, Spatial Disorientation Part 1 - Why Not to Fly by the Seat of Your Pants, and Spatial Disorientation Part 2 - Visual Illusions.

Directions: The event will be held at EAA Chapter 865's hanger on the east side of the T-hangers. Those flying in please park in front of the Terminal.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
